TAP WATER IS HEALTHY

It is vital and it is the best controlled food.
The perfect drink for human beings!

- Water regulates the temperature and distributes nutrients throughout the body.
- Our body **loses ~7%** of fluid during the day.
  We have to compensate for this by **drinking water**.
- **1,5 L** of tap water a day keeps us fit and healthy!

- Drinking water is accessible **anywhere** and **anytime** and always comes fresh from the tap.

- No other food is as well controlled as tap water.
- It is analysed for at least **48 chemical and bacteriological parameters**.
- In total, **12.000 analyses** and controls are carried out during the year!
- The analyses of your municipality are available on **drenkwaasser.lu**

- **Tap water** quenches your thirst, **without** containing sugars or fats
